SRI LANKA RAPIDLY EXPANDING MARKET

The wood-based manufacturing sector in Sri Lanka depends almost entirely on the wood supply for raw materials. The sector is diverse, consisting of a variety of industries including saw milling, furniture, construction, parquet flooring, wood-based panel products, carvings and wood related products. Sri Lanka possesses an abundance of natural resources that enrich and sustain the lives of its people. Although exports have gradually increased over the past decade and shows growth potential.

Sri Lanka Wood International Expo showcases some of the latest and greatest products along with their technologies from across the globe. It delivers unprecedented access to key decision makers in wood industry of the country.

Private sector ownership comprises about 95% of the industry with less government involvement. Sri Lanka comprises of around more than 60,000 production units. The revenue from those units translates into an estimated monthly revenue of around Rs.54 million. In annual terms, that's a revenue is of around Rs.648 million.

SRI LANKA WOOD EXPO automatically becomes the sole platform for companies to make a Brand of yours familiar to the Skilled labor of Sri Lanka and educate them about the latest technologies and tools.

Sri Lanka's furniture and wood based product exports are rising due to growing potential in this business. There is great demand for Sri Lankan furniture in foreign countries and the country should explore this opportunity to earn much needed foreign exchange. The country is exploring India & neighboring market taking advantage of THE FREE TRADE AGREEMENT between the two countries. Also The Sri Lankan wooden products industry is now catering to the expectations of international buyers.
